## Last Update: (12/15/99) ABachicha:dal - 3.4.P.0

This policy has been reformatted for placement on Sandia's External Web site.

---

### Background - 3.4.P.1

The Buy American Act requires that all government organizations and Contractors purchase U.S. manufactured end products in preference to those of foreign manufacture so long as the domestic items are of satisfactory quality and are available in sufficient quantity. The procurement of services is not covered by the Act.

PRs for foreign items other than those on FSS, AOAs and excepted items will not be assigned to the APS/GSS/JIT Program.

---

### Policy - 3.4.P.2

It is SNL's policy to comply with the Buy American Act which requires that only domestic end products be acquired for public use, except articles, material, and supplies:

- For use outside the United States;
- For which the cost would be unreasonable;
- That are not mined, produced or manufactured in the United States and reasonably available quantities, of a satisfactory quality.
